Final Stage show review

Teilen

Dienstag, 8. Juni 2010 um 13:23

The past fortnight has been an exciting one for our second year FdA students with not one but two finale shows. Final Stage: Part One played to an appreciative audience in Bristol Old Vic's Studio last week. Featuring everything from burlesque strip tease to outstanding trapeze, nail biting juggling and a hilarious whodunnit, our students were able to show the professionals they've become in the last two years.

But it's not over yet! From Thursday to Saturday this week join us at St Paul's Church to see all the goodies Final Stage: Part Two has to offer. Tickets are selling fast so call Bristol Old Vic Box Office on 0117 987 7877 to reserve yours now.

To read a review of Part One visit

Helen McCall I could only make it to the Part 2 of the show, which I enjoyed immensely. I had two favourites from this show:

My first favourite was the swinging hoop which spun on a horizontal axis. The girl on that made it look so much fun, I've now got to get one made!

My principal criticism of this act is that more attention should have been applied to the making of her costume to facilitate easier attachment of the safety lines to her lunge belt. She should develop this act further because it has a lot of scope for creating a novel and exciting full length aerial dance show, and she obviously has the skill to do this.

My second favourite was the burlesque "Mr Bombastic" routine. This woman is an outstanding professional performer who maintained eye contact with the entire audience throughout her performance.

I greatly enjoyed the doubles aerial acro. I would love to have her muscles!

I hope all the graduates in this show go on to fun and rewarding careers. They deserve that, and are a credit to Circomedia.

Thank you all for a wonderful evening.

Lots love, Helen
